

# SAY YES TO MIRACLE BABY!

## **The Amazonian Miracle Worker Helps Barren Women Have Children after Other Treatments Failed!**

### **Many mature-age mothers around the world sing praises to Antonia & her fertility herbs**

Nicknamed the miracle worker by many of her clients, Antonia has helped infertile couples from many countries find their own bundle of joy, despite age or health issues.

By blending her intimate knowledge of herbal medicine with her unique level of expertise Antonia has helped many 'problematic' couples conceive.

### **They thought they could never get pregnant...**

**Antonia's herbal fertility program produces incredible results.**

### **Her success stories read like newspaper headlines:**

- 'After failing IVF attempts, an ectopic pregnancy and carrying a genetic condition, this desperate mother turns to Antonia to help her conceive.' (\*)
- "“Woman with a septate uterus and one blocked tube finally gets pregnant after just 5 months on Antonia's program”. (\*)
- 'At 43, and after about 8 unsuccessful IVF attempts, Antonia gave us the greatest gift – our beautiful baby!' (\*)
- 'With one fallopian tube removed and two failed pregnancies, this woman was distraught until Antonia helped her to conceive just four months after meeting her!' (\*)
- 'Even with Connective Tissue Disorder (Lupus syndrome), Celiac Disease and chronic fertility issues, I am now the proud 45-year-old mother of a healthy baby boy!' (\*)

(\*) Disclaimer: Results will vary from client to client due to the many factors involved.

[See our Case Studies page](#) for more of Antonia's success stories.

*If conventional wisdom says you're too old to have babies...*

*If you have menstrual irregularities or problems conceiving...*

*If you believe surrogacy or adoption is the only option...*

### **Antonia wants to hear your story.**

**Most importantly**, she wants to help you conceive.

Antonia Ruhl sees herself as a spiritual healer; a person born to serve others. She blends her passion for serving people with her unique skill set as a healer and her inborn understanding of herbal and plant life.

Of course, some raise an eyebrow here – *but her results speak for themselves!*

### **What conventional wisdom says...**

Conventional wisdom says that once a woman exits her golden childbearing years, she should kiss the idea of conceiving a healthy baby goodbye. After all, who wants to risk stillbirth, miscarriage and baby abnormalities!

Then there are **health complications** that worry both men and women.

In women, some health problems arise during pregnancy, and then there are genetic problems that lead to complications during conception or after birth.

**You see, as you age, so do your eggs.** The older you get the more prone to genetic abnormalities your eggs become, and that may be why you struggle to get pregnant. The health of your ovaries, uterus and even your hormones could also be to blame.

Men, on the other hand, can also suffer from infertility. In fact, statistics show that for about 1 in 5 infertile couples, the male partner is to blame, even when intercourse, erections and ejaculations show no sign of problems.

Whatever the issue, blaming won't solve it, and if conventional wisdom is not able to resolve it for you and your partner, then consider the alternative.

### **Antonia Ruhl – when everything else fails...**

If you're over 35 and have had regular, unprotected sex for more than a year, and you have seen doctors or countless experts without becoming pregnant, then take heart. Antonia may be able to help you produce the miracle of life!

Ruhl has opened closed wombs and awakened snoozing reproductive systems that could not be stimulated by regular fertility treatments.

**Antonia is not your typical health professional** – she is a gifted healer.

After two years of tribal immersion, she was initiated as a Tribal Medicine Woman by the Medicine Guru of the Kayapo Indians, an Amazonian tribe.

One of her secret healing techniques is using Pulse Therapy to energise the human body. Using this powerful method, she believes that she can energise the crystalline structures of plants and herbs to increase their potency.

Ruhl has also studied the anatomy of plants with various herbal masters. She believes this unique knowledge and expertise enables her to select plants based on their similarities with the human anatomy to treat infertility in men and women.

### **The hidden benefit of the Amazonian Rainforest**

Most know that the rainforest of the Amazon is the world's greatest bio-system – a unique habitat to a plethora of plants, herbs and species.

Research shows that a single hectare may contain over 750 types of trees and 1500 species of higher plants. At least 3000 fruits are found in the rainforests; of these, only 200 are now in use in the Western world.

### **The Indians of the rainforest use over 2,000.**

What's even more interesting is that 121 prescription drugs currently sold worldwide come from plant-derived sources. And while 25% of pharmaceuticals used in the Western world are derived from rainforest ingredients, less than 1% of these tropical trees and plants have been tested by scientists.

### **LESS THAN ONE-PERCENT!**

The Amazon Rainforests are not just the lungs of our vast and beautiful planet, they're also nature's biggest gift of natural medicine.

While some scientists find the Amazon too big and complex to grasp and study, Ruhl believes she holds the secret to understanding the jungle's secrets that can help with male and female infertility issues.

### **Can Antonia help you solve your infertility issues?**

Antonia invites you to give her Herbal Fertility Program a go. By blending her intimate knowledge of the Amazon's powerful herbs and her rare expertise Antonia will produce a herbal formula that's unique for you and your needs.

While preparing your individual Herbal Fertility Program, Antonia will take it through a shamanic process - a 'sacred technique' she learned in the heart of the rainforest that she believes increases the healing properties of the herbs.

### **We have Amazon herbs for special fertility issues:**

- Female and Male fertility tonics
- Fertility herbs for ovulation problems
- Fertility herbs to improve sperm quality
- Fertility herbs for fetus support
- Fertility herbs for amenorrhea
- Fertility herbs for dysmenorrhea and more...

The herbs often lose most of their potency due to long transportation and quarantine processes. Antonia believes that her blessing ritual recharges the vital force and healing properties of the herbs and reconnects them with Mother Nature.

Antonia provides women with special care before and during pregnancy to decrease the risk of pregnancy complications and maintain inner balance throughout the pregnancy and early parenthood.

Antonia's success supersedes scientific research; however, what cannot be explained on purely scientific terms produces many desirable pregnancies for many of her private clients. You could be her next success story!

**In the end, the only things we regret are the chances we didn't take.**

**To find out if and how Antonia can be of assistance** to you and/or your partner, [please contact us](#). We will set up a confidential one-on-one consultation\* with Antonia Ruhl, either in her private offices or remotely via FaceTime, Whatsapp, Skype or phone.
